Overview

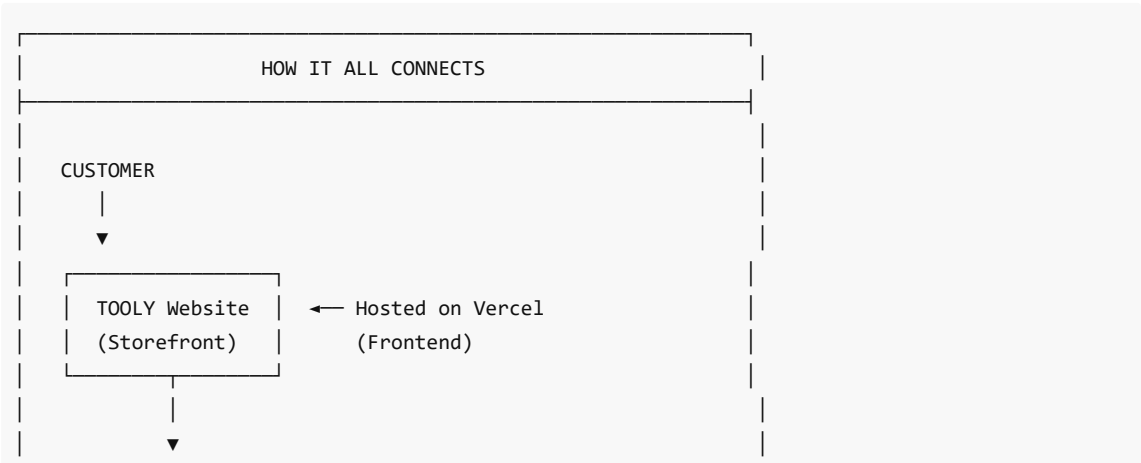

TOOLY is an e-commerce platform for selling precision-crafted aroma delivery devices. The system consists of:

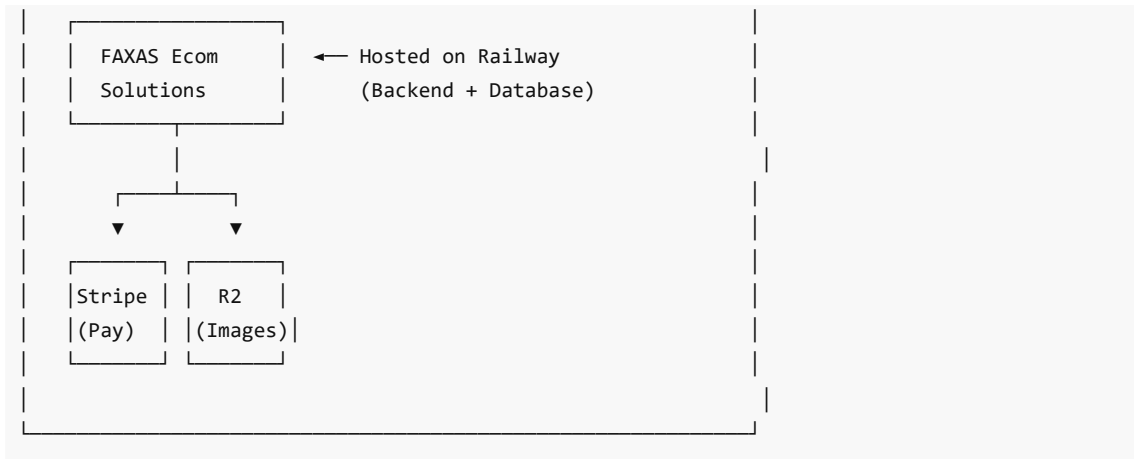

- **Customer-facing website** - Where customers browse and purchase products
- **Admin panel** - Where team members manage products, orders, and content
- **Payment processing** - Secure credit card payments via Stripe
- **Asset storage** - Product images stored in the cloud

Key URLs

What	URL
Customer Store	https://shofar-ecommerce-platform-shofar-st.vercel.app
Admin Panel	https://vendure-server-production-75fc.up.railway.app/admin (FAXAS Ecom Solutions)

System Architecture

Services We Use

1. Vercel (Frontend Hosting)

What it does: Hosts the customer-facing website that shoppers see.

Key features:

- Automatically deploys when we push code updates
- Fast global delivery (CDN)
- SSL/HTTPS security included

Dashboard: <https://vercel.com/dashboard>

2. Railway (Backend Hosting)

What it does: Hosts the FAXAS Ecom Solutions admin panel and database.

Key features:

- Runs the order management system
- Stores all product data, orders, and customer info
- Processes business logic

Dashboard: <https://railway.app/dashboard>

3. Stripe (Payment Processing)

What it does: Securely processes credit card payments.

Key features:

- PCI-compliant (handles card data securely)
- Supports multiple payment methods (cards, Apple Pay, etc.)
- Automatic fraud detection
- Real-time payment notifications

Dashboard: <https://dashboard.stripe.com>

Test Mode vs Live Mode:

- **Test Mode:** Use card 4242 4242 4242 4242 for testing (no real charges)
- **Live Mode:** Real customer payments (requires switching API keys)

4. Cloudflare R2 (Image Storage)

What it does: Stores and delivers product images globally.

Key features:

- Fast image loading worldwide
- Unlimited storage
- Automatic image optimization

Note: Images are managed through the FAXAS Ecom Solutions Admin panel, not directly in R2.

Admin Panel Guide

Accessing the Admin Panel

1. Go to: <https://vendure-server-production-75fc.up.railway.app/admin>
2. Enter your credentials (provided separately by your admin)
3. You'll see the main dashboard

Admin Panel Layout

Managing Products

Viewing Products

1. Click **Catalog** → **Products** in the left sidebar
2. You'll see a list of all products
3. Click any product to view/edit details

Editing Product Information

1. Open the product you want to edit
2. You can change:
 - **Name:** The product title
 - **Description:** Detailed product info
 - **Price:** Set in the Variants section
 - **Stock:** How many units available
3. Click **Save** when done

Managing Product Images

1. Open the product
2. Scroll to the **Assets** section
3. To add images:
 - Click **Add Assets**
 - Drag and drop images or click to browse
 - Select which image is the **Featured Asset** (main image)
4. Click **Save**

Understanding Variants

A variant is a specific version of a product. For example:

- TOOLY - DLC Gunmetal (the current variant)

Each variant has its own:

- SKU (stock keeping unit)
- Price
- Stock level
- Images (optional)

Managing Content

What Can Be Edited in Admin

All storefront text can be edited without touching code! Go to:

Settings → **Channels** → **tooly** → **Storefront tab**

Editable Content Areas

Section	What You Can Edit
Hero	Badge text, headline, subheadline, button labels
Trust Badges	4 trust indicators (titles + subtitles)
Features	6 feature cards (titles + descriptions)
Gallery	Section heading and subheading

Shop Widget	Shipping text, delivery estimate, stock labels
FAQ	Up to 6 questions and answers
Footer	Disclaimer text

How to Edit Content

1. Go to **Settings** → **Channels**
2. Click on **tooly**
3. Click the **Storefront** tab
4. Edit any text field
5. Click **Save**
6. Changes appear on the website within 1-2 minutes

Setting the Hero Background Image

1. Go to **Settings** → **Channels** → **tooly**
2. Find **Hero Background Image**
3. Click to upload or select an existing image
4. Click **Save**

Setting the Gallery Images

1. Go to **Settings** → **Channels** → **tooly**
2. Find the **Marketing** tab
3. Upload up to 6 images for the gallery
4. Click **Save**

Processing Orders

Viewing Orders

1. Click **Sales** → **Orders** in the left sidebar
2. You'll see all orders sorted by date (newest first)

Order Statuses

Status	Meaning
Adding Items	Customer is still shopping (cart)
ArrangingPayment	Customer at checkout
PaymentSettled	Payment received successfully
Shipped	Order has been shipped
Delivered	Order delivered to customer
Cancelled	Order was cancelled

Fulfilling an Order

1. Click on the order to open it
2. Review the items and shipping address

3. When ready to ship:
 - Click **Fulfill**
 - Enter tracking number (if available)
 - Select shipping carrier
 - Click **Confirm**
4. The customer will receive a notification

Refunding an Order

1. Open the order
 2. Click **Refund**
 3. Select items to refund (or full order)
 4. Add a reason for the refund
 5. Click **Confirm**
 6. Stripe will process the refund automatically
-

Customer Storefront

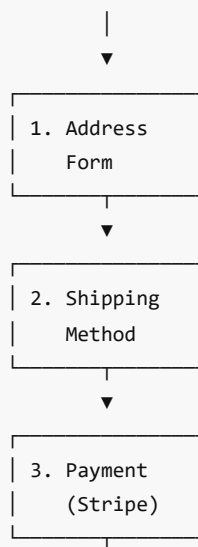

What Customers See

The storefront has these sections (top to bottom):

1. **Navigation Bar** - Logo, menu links, cart icon
2. **Hero Section** - Big headline with background image
3. **Credibility Section** - Stats and trust badges
4. **Technology Section** - 6 feature cards
5. **Gallery Section** - Product photos grid
6. **Product Section** - Main product with Add to Cart
7. **Accessories Section** - Related products (Coming Soon)
8. **Reviews Section** - Customer testimonials
9. **FAQ Section** - Common questions
10. **Footer** - Links and legal info

Customer Checkout Flow

Add to Cart → View Cart → Checkout

▼

4. Order Confirmation

Common Tasks

Task: Update Product Price

1. Admin Panel → **Catalog** → **Products**
2. Click on **TOOLY**
3. Scroll to **Variants**
4. Click on the variant (e.g., "DLC Gunmetal")
5. Change the **Price** field
6. Click **Save**

Task: Update Stock Quantity

1. Admin Panel → **Catalog** → **Products**
2. Click on **TOOLY**
3. Scroll to **Variants**
4. Click on the variant
5. Change **Stock on hand**
6. Click **Save**

Task: Change Shipping Price

1. Admin Panel → **Settings** → **Shipping methods**
2. Click on "Standard Shipping"
3. Edit the price in **Calculator** section
4. Click **Save**

Task: Update Hero Text

1. Admin Panel → **Settings** → **Channels** → **tooly**
2. Click **Storefront** tab
3. Edit:
 - storefrontHeroPill - The small badge text
 - storefrontHeroHeadlineLine1 - First line of headline
 - storefrontHeroHeadlineAccent - Colorful middle line

 - storefrontHeroSubhead - Paragraph below headline
4. Click **Save**

Task: Add a New FAQ Question

1. Admin Panel → **Settings** → **Channels** → **tooly**
 2. Click **Storefront** tab
 3. Find the FAQ fields (storefrontFaq1Question, etc.)
 4. Fill in both Question and Answer for an empty slot
 5. Click **Save**
-

Troubleshooting

Problem: Changes not appearing on website

Solution:

- Wait 1-2 minutes (changes need to propagate)
- Hard refresh the page: `Ctrl + Shift + R` (Windows) or `Cmd + Shift + R` (Mac)
- Clear browser cache

Problem: Cannot log into Admin Panel

Solution:

- Check you're using the correct URL
- Verify credentials with your administrator
- Try a different browser
- Clear cookies and try again

Problem: Product images not showing

Solution:

- Check images were uploaded in Admin → Products → [Product] → Assets
- Ensure one image is set as "Featured Asset"
- Wait a few minutes for images to propagate
- Check image file isn't corrupted (try opening it locally first)

Problem: Customer says checkout failed

Solution:

1. Check Stripe Dashboard for the payment attempt
2. Look at the order in Admin Panel
3. Common causes:
 - Card declined by bank
 - Incorrect card details
 - Expired card
 - Insufficient funds

Problem: Order stuck in "Adding Items"

Solution:

- This means the customer never completed checkout
- These are essentially abandoned carts
- No action needed - they'll expire automatically

Glossary

Term	Definition
Admin Panel	The backend interface for managing the store
Asset	An image or file uploaded to the system

Channel	A storefront configuration (we use "tooly")
Checkout	The process of completing a purchase
CMS	Content Management System - where you edit text
Featured Asset	The main product image shown first
Fulfill	Mark an order as shipped
SKU	Stock Keeping Unit - unique product identifier
Storefront	The customer-facing website
Variant	A specific version of a product (color, size, etc.)
FAXAS Ecom Solutions	The e-commerce platform (admin panel) we use
